**NICHOLAS
ROERICH
MUSEUM**

The Master

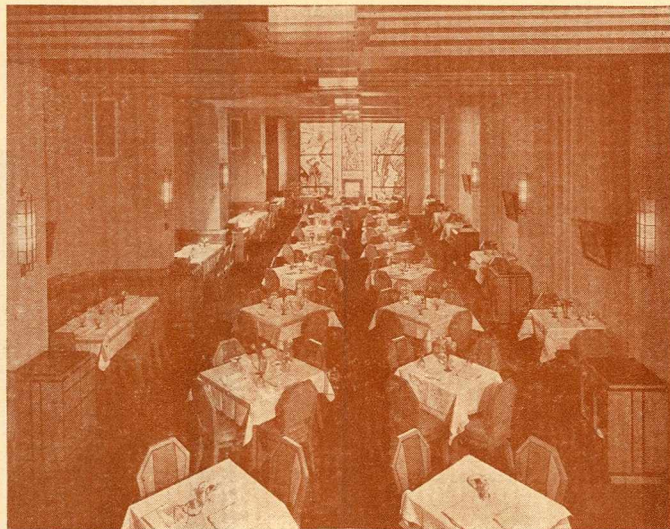

*The
Most Beautiful
Restaurant
in New York*

THUS our visitors have given this name to the *Master Restaurant* in the ROERICH MUSEUM. And that is why they return again and again with their families and guests.

And is it not natural that this Restaurant should be beautiful when it is in the limits of one of the world's greatest art centers—the ROERICH MUSEUM?

But it is not only beauty that has made the *Master Restaurant* so famous since its opening in October. In its aim of making this a center of social intercourse, one of the most skilled chefs and maitre d'hôtels have been secured and the food and service have been acknowledged impeccable.

Add the fact that it is one of the most modestly priced restaurants—and you have the secrets of its growing popularity.

*For
Meetings*

THE immediate response from clubs for the *Master Restaurant* for their meetings, luncheons and banquets has

already necessitated the opening of a second Grill Room and Banquet Hall to the public.

In exquisite modern design the new hall—the “Kiva”—is executed in the American-Indian Decoration—a tribute to native American creation.

The Dining Hall and Grill Room are available for individuals, family parties, club meetings, banquets, dances, luncheons and other functions.

Prices are moderate and we ask you to convince yourselves by a visit and an interview with the management.
